

SOUTHEASTERN
COLLEGE

STATE AUTHORIZATION

Federal Regulations require an institution to disclose whether its programs prepare graduates for any state licensure or certification to work in the field of study.

Programs that Prepare Graduates for State Licensure or Certification

- Medical Assisting
- Medical Billing and Coding Specialist
- Early Childhood Education
- Practical Nursing
- Nursing (ASN)
- Surgical Technology
- Diagnostic Medical Sonography
- Radiologic Technology

These programs are regulated occupations in **Florida**.

- The Medical Assisting program offered by Southeastern College prepares graduates for the Registered Medical Assistant (RMA) and the Certified Medical Assistant (CMA) examination.
- The Medical Billing and Coding Specialist program offered by Southeastern College prepares graduates for the Certified Billing and Coding Specialist (CBCS) examination.
- The Practical Nursing program offered by Southeastern College prepares graduates for the National Council Licensure Examination for licensure as a Practical Nurse (NCLEX-PN).
- The Nursing program offered by Southeastern College prepares graduates for the National Council Licensure Examination for licensure as a Registered Nurse (NCLEX-RN).
- Early Childhood Education students that meet all educational and institutional requirements for a degree may be eligible to apply and sit for certification examinations through the Florida Department of Children and Families.
- The Surgical Technology program offered by Southeastern College prepares graduates for the Certified Surgical Technologist (CST) examination.
- The Diagnostic Medical Sonography program offered by Southeastern College prepares graduates for the American Registry for Diagnostic Medical Sonography (ARDMS) examination.
- The Radiologic Technology program offered by Southeastern College prepares graduates to sit for the American Registry of Radiologic Technologists (AART) examination.

Successful passage of these licensure and certification examinations are required to work in Florida.

The institution has not made any determination regarding licensure or certification requirements in the 49 other states and the District of Columbia. Applicants who move to another state should review the requirements for their respective programs for employment in that state.

The RN to BSN program offered by Southeastern College does not prepare students to sit licensure examination, however, licensure as a Registered Nurse is required to be employed and to practice as a BSN in Florida. No other programs offered by Southeastern College prepare students for occupations that require professional licensure.
