College Central Network

College Central Network is a FREE service offered to students and alumni that assists with finding employment opportunities! New positions are posted daily along with where and how to apply. All students and alumni are pre-registered for this service, but will need to complete their registration via the e-mail link sent to them by The Department of Student Services. This service also allows for employers to see student and alumni resumes and lets The Department of Student Services approve resumes before they are submitted to employers.

Professional Development Seminars

The Department of Student Services offers five professional development seminars each month. These seminars are also known as MOD seminars and are mandatory for students. The five topics discussed are Professionalism, Social Media, Resume Writing, Interview Skills, and Certifications. These seminars help to ensure our students are career ready once they complete their program. Students should attend the MOD seminar that correlates with the MOD they are currently in. To see a complete schedule of when these seminars are offered visit Blackboard and click on "organizations" in the upper right corner next to your name. A schedule is also posted on the Student Services bulletin board.

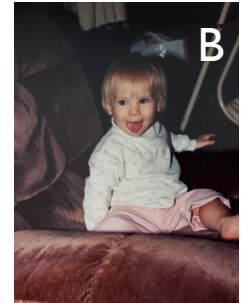

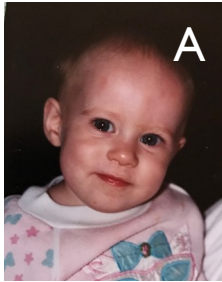

A Message from Dean Pilotti

What an exciting time for Southeastern College! Last year we saw the launch of Associate Degree programs in Diagnostic Medical Sonography and Radiologic Technology. We also saw the resurgence of the Pharmacy Technology program. In fact, our campus was named among **the fastest growing organizations in the Lowcountry of South Carolina**. Our Medical Assisting and Professional Clinical Massage Therapy programs continue to thrive. Both are flush with extensive job opportunities. On the heels of last year's growth come two more Associate Degree programs this year in Occupational Therapy Assistant and Surgical Technology. Meanwhile, the South Carolina Board of Nursing visits our campus for consideration for approval of our proposed Associate Degree in Nursing program. You may have noticed the campus transform as we redesign to accommodate these new programs. You'll see more campus space innovations in the future in the way of both space utilization and ultimately space expansion. Coinciding with the campus growth, we continue to develop and expand relationships with the major healthcare employers in the area. Including the major hospitals such as MUSC and Roper St. Francis, along with other hospitals, physician offices, and healthcare facilities in our community. We could not be prouder of the feedback we get from these employers about our students working in their organization. The future is bright at Southeastern College!
